

CORSICA User Stories

As an Advisor, I want to...

- ...remove advisor holds from student accounts
- ...make suggestions to students on what classes to take
- ...perform various course-related overrides
- ...view student registration history
- ...view respective departmental waitlist queues
- ...oversee departmental course descriptions

As a Scheduler, I want to...

- ...view any course offered for their department
- ...view a specific course
- ...view details about lecture/lab/recitation
- ...request enrolled/capacity
- ...view details about a waitlist
- ...request amount on waitlist after registration
- ...expand capacity of a course
- ...subtract capacity of a course
- ...create a course
- ...open a course
- ...close a course
- ...delete a course

As a Student, I want to...

- ...waitlist myself for one course section
- ...waitlist myself for more than one course section
- ...add myself to multiple waitlists
- ...remove myself from a waitlist
- ...view my position on the waitlist/waitlists I'm currently on
- ...be notified when there is an open seat and I can register
- ...be given a sufficient amount of time in which to register
- ...be provided with simple instructions regarding how the waitlist works
- ...receive text/email notification

As a Non Logged-In User, I want to...

- ...view page 'About Us'
- ...view page 'Overview'
- ...view page 'Deliverables'
- ...view page 'Presentations'
- ...have access to login function

As an Administrator User, I want to...

- ...have the ability to manage / view all course waitlist queues.
- ...be able to manage students on all course waitlist queues.
- ...view course waitlist statistics for analytical purposes.
- ...do everything an advisor user can do.
- ...retain master control.
- ...update course information as it pertains to the waitlist system (caps / overrides).
- ...remove courses as available options for student users.
- ...add courses as available options for student users.
- ...view advisor action reports.
- ...add / delete other users.
- ...block users.
